

Key Features

- Filters for Ultimate 3300, 4400, and 8800
- Easy to replace
- CellarCool recommends replacing the unit's filter every three months

Features

These easy-to-install filters are used with the Ultimate 3300, 4400, and 8800 tiR systems. CellarCool recommends replacing your filters at least once every three months to ensure system longevity, better air quality, and more efficient cooling.
